CHARACTERISTICS

MOTO-FLASH 2SH represents the solution for dry cutting of ceramic, porcelain stoneware, marble and granite slabs with lengths up to over three meters (340 cm) and thicknesses up to 20 mm with a 150mm diameter blade and up to 40mm with 190mm diameter blade (optional).

The machine combines the advantages of the Flash line manual cutter such as the lightness, precision and, above all, the patented anti-sleep locking system without the use of suction cups; with the addition of a motorized head with a professional diamond blade.

TECHNICAL DATA

ART.	MOTOR	MAX CUTTING LENGTH	MAX CUTTING THICKNESS	BLADE & CENTRAL BORE DIAM	WEIGHT
	V~/kW (HP)	(cm)	(cm)	(mm)	(Kg)
MFL2-SH	230/1,6 (2,1)	340	0 ÷ 2	150/30	12,3
MFL2-SH-115V	110-120/1,6 (2,1)	340	0 ÷ 2	150/30	12,3
MFL2-SH-PU	230/1,6 (2,1)	340	0 ÷ 2	150/30	6,5
MFL2-SH-PU-115V	110-120/1,6 (2,1)	340	0 ÷ 2	150/30	6,5
