

## FLOOR SCRUBBER DRIER

### CHARACTERISTICS

**ST COMPACT**, is the floor scrubber driers, walk behind, of the professional line. It is a Very solid scrubbing machines suitable to work for the maintenance cleaning of limited-size areas. Especially suitable for cleaning: car shops, sales points, gym, health care.

It presents a control panel with operator presence safety system and low level battery indicator.

The outflow of the detergent solution is controlled by a solenoid valve.

The actuation of the solenoid valve is operated by the control lever, avoiding the detergent solution outflow when the brush is stopped during the interruptions of work.
